IVIANNY

OFFICIAL ONE-SHEET | AI-CRAFTED DARK ELECTRONIC

IVIANNY is an independent dark-electronic project. Nine singles are out now — every track AI-crafted in Suno and directed end-to-end by a human producer.

The concept is “haptic spatial audio”: low-end you feel in your chest, built for headphones and big systems. Dark, cinematic, physical.

Distributed worldwide via DistroKid to Apple Music, Spotify, YouTube and more. Fully cleared — available for radio airplay and sync licensing (film, TV, ads, gaming).
