THE ARTIST

NOLO is the Spanish-language metalcore project of **Manolo Caraballo**, a German-born lifelong creator whose work has spanned music, books, visual art, and AI/VR creativity. Built for the heavy underground: mystical, futuristic alternative metal sung entirely in Spanish — industrial weight, hardcore urgency, and choruses built for radio. The name is cut from Manolo — the artist IS the name.

THE SINGLE

"SEÑALES" (Signals) — the debut. The universe speaking through hidden patterns: red signal-lines tearing through a black sky. Distorted guitars up front, pounding drums, grittier vocals, abrupt dynamic shifts, and a half-time bridge breakdown. Raw, powerful, unpredictable — built to hit on first listen.
